CREATING lasting moments in ATLANTA

As one of the largest, most wide-ranging urban redevelopment programs in the United States, the Atlanta BeltLine is the catalyst for making Atlanta a global beacon for equitable, inclusive, and sustainable city life. Our goal is to implement the BeltLine project in a way that ensures all Atlantans have the chance to participate in and benefit from its economic growth for generations to come.

TRAILS
A network of pedestrian-friendly spaces that promote walking, jogging and biking can bring together diverse communities across the city and promote healthy living for everyone. In the city.

TRANSPORTATION
Improve connectivity and better access to quality transit options are fundamental to the vision for the BeltLine as part of an economically and culturally diverse community. Our strategic planning for rail transit on the Atlanta BeltLine calls for building upon the existing transportation infrastructure to enhance connectivity of the 22-mile BeltLine loop, with five freight/city connector corridors integrated with MARTA.

PARKS
Quality greenspaces are essential to a sustainable quality of life in an urban environment, with park spaces providing recreational opportunities and access points for community connections.

ARTS & CULTURE
Celebrating our rich cultural diversity through creative expression is integral to a project focused on bringing together a broad cross section of the city to build shared values and aspirations.

AFFORDABLE HOUSING
A principle tenet of the project is maintaining equitable access to quality and affordable housing ensuring neighborhoods at risk of gentrification are preserved and protected.

ECONOMIC DEVELOPMENT
A significant infusion of private and public investment along the Atlanta BeltLine corridor demonstrates its powerful economic impact and its ability to spur sustainable growth and job creation.
